Topical Fluoride Permission Form

Dear Parent or Guardian,

Over 80% of American Indian and Alaska Native Head Start children have dental cavities. However, cavities can be prevented through the use of fluoride, dental sealants, and xylitol.

We will provide a fluoride varnish program for Head Start children this year. Because your child is a minor, you consent is needed to allow your child to receive this preventive service.

Fluoride Varnish

Procedure: A high concentration fluoride varnish is painted directly onto the teeth.

Benefits: Fluoride Varnish coats the outside of the tooth and can provide some cavity-fighting power for up to 3 months.

Parental Permission

I give my son or daughter, _____, permission to have fluoride varnish placed on his or her teeth multiple times in a year by a trained staff or provider with prescription or standing orders. I understand the Fluoride Varnish program is a preventive program and the product is safe and effective.

Please list any physical conditions that the school should be aware of (asthma, allergies, recurring illnesses, disabilities, chronic illnesses, etc.):

Fluoride Varnish:

I do **NOT** want my child to have fluoride varnish applied.

I **DO** want my child to have fluoride varnish applied.

Parent or Guardian Name (print) _____

Signature _____ Date _____

Telephone Number _____
